CERTIFICATE OF ANALYSIS

Tween 80

1. General

Appearance: Amber viscous grease

Chemical Name: Tween 80

Synonyms: Polyoxyethylenesorbitan monooleate; Sorbitan monooleate ethoxylate.

Molecular Formula: $C_{24}H_{44}O_6(C_2H_4O)_n$

CAS No.: 9005-67-8

2. Specification

Parameter	Unit	Specification	Test Method
Hydroxyl value	mgKOH/g	65~82	GB/T 7384
Saponification number	mgKOH/g	43~55	HG/T 3505
Acid value	mgKOH/g	≤2	GB/T 6365
Water content	% m/m	≤2	GB/T 7380

3. Applications

Used as emulsifier, foaming agent, lubricant, solubilizing agent, antistatic agent, washing agent, dispersing agent, degreasing agent and chemical intermediate in the industry.

4. Package Package: 1000Kg / IBC drum or 200Kg / metal drum (Net weight).
