

OXALIC ACID 99.6% MIN.

Technology : Oxalic Acid is manufactured by oxidation of **PURE SUGAR** with nitric acid in presence of a mixture of sulfuric acid & water. It is dry proceed quality in the free flow and white crystalline powder.

Capacity : RCPL produces approximately 20000MT PA of Oxalic Acid and is one of the larges manufacturer of Oxalic Acid in India. The product conforms to the highest purity grade of ISO certified.

Description	: White Crystalline Powder
Chemical Name	: Oxalic Acid
Concentration	: 99.6% Min.
CAS Number	: 144 - 62 - 7
LD 50	: 50 to 500 mg / kg
Sulphate Contents	: 400 ppm Max.
Sulphated Ash	: 0.02 % Max.
Chlorides	: 10 ppm Max.
Magnesium	: 10 ppm Max.
Iron	: 10 ppm Max.
Heavy Metals (as Pb)	: 10 ppm Max.
Nitrogen Compound	: 10 ppm Max.
Potassium	: 5 ppm Max.
Sodium	: 10 ppm Max.
Calcium	: 10 ppm Max.
Residue	: 0.06 % Max.

Admn. Office :-

Manan Bunglow Compound, Near Central Bank of India, Ambawadi, Ahmedabd-380006, Gujarat -India.

Phone : +91 79 26445735, 26445609, Fax : +91 79 26466871,

Email : remikahd@remik.com, exim@remikgroup.com

Reg Office & Factory :-

Plant -1). Plot No.C/1/91-2, GIDC Vatva, Phase-1, Vatva, Ahmedabad-382445, Gujarat - India

Phone : +91 79 25890242, 48082141 to 43, Email : vka@remik.com

Plant -2). Plot No. 3109 / 3110, G.I.D.C. Estate, Panoli - 394116, Dist. Bharuch, Gujarat - India.

Phone : +91 2646 272084

Application / End Uses :-

- **Textile :-**
 - As reducing agent for dyeing and printing.
 - As bleaching agent.
 - As coloring mordant for fast pigment dyestuff.
 - As substitute of acetic acid.

- **Pharmaceuticals :-**
 - Purifying agent in pharmaceutical industry, specially in antibiotic medication, such as Oxytetracycline, Chloramphenicol etc.,
- **Metallurgy Industry :-**
 - As precipitating and separating function for Rare-earth metal
 - Rust-remover for Metal treatment.
- **Organic Synthetic :-**
 - Used in 2133 resin, Urea formaldehyde molding powder.
 - Precipitating agent in Rare earth mineral processing.
- **Other Industries :-**
 - As leather processing.
 - Polishing of Marble and other precious stone.
 - Bleaching & dirt remover etc.
 - Waste water treatment,
 - Removing calcium from water.
 - Food pulp bleaching.
