CERTIFICATE OF ANALYSIS

Sodium Diacetate

Name: Sodium Diacetate According to.: FCC-V
 Cas: 126-96-5 M/D: Oct 10, 2015
 S/Q: Oct. 16, 2015 Quantity: 2mt

ANALYSIS ITEM	Result	QUALITY INDEXES
Free acetic acid %	39.83	39.0-41.0
SodiumAcetate(ChCOONa)%	58.36	58.0-60.0
Moisture≤%	0.78	2.0
PH(10% apueous solution)	4.6	4.5-5.0
Formic acid and Matters easy to oxidize%≤	0.2	0.2
Arsenic(As) ≤	<0.0003	0.0003
Heavy Metals(as Pb)% ≤	<0.001	0.001

Other name	Nonosodium Diacetate
Application	It is a kind of new-type grain, beverage additive of food, used in the food additive extensively(for example, toasts food, candy, fat, meat products, oil, soy sauce, dressing, pastry, fast food, soup custard and powder stock, etc.); grain fodder and green-feed additive; the printing and dre industry use it as acid pharmaceutical; used as even to take pharmaceutical, buffer, etc. it is generally recognized as safe ingredient by the US FDA, and is a generally permitted food additive in Europe and elsewhere in 1982. The FDA and WHO approve sodium Diacetate for serve as antiseptic among the food and fodder.
Regular package	25kg/package, double plastic and paper compound bag.
Storage and transportation	Keep it in shady and cool place of the normal atmospheric temperature (<40°C), should be sealed, sun-proof and damp proof. Don't mix and put with the poisonous chemicals!
