

Certification of analysis

Trichloroisocyanuric acid TCCA 90%

Chemical Formula: C₃Cl₃N₃O₃

CAS NO: 87-90-1 HS:29336922

Packing: 25/50KG bag/drum

Granular: 8-30 mesh, 20-60 mesh (or decided by customer)

Tablet: 5g,10g,20g,50g,100g,200g

Application:

1. It can be used in water treatment, swimming pool water treatment, drink water treatment and algae removing of industrial circulating water.
2. It can be used in dishware disinfection, preventative disinfection of houses, hotels and public places, hygiene and diseal control in hospitals, and dust, algaecides, clarifiers.
3. Moreover, It can also be used in textile cleansing and bleaching, wool shrink resistance, paper insect resistance, and rubber chlorination, etc.

ITEM	STANDARDS	RESULTS
Appearance	White powder	comply
Available Chlorine	90.0% min.	90.15%
Moisture	≤0.5%	0.18%
PH value	2.7-3.3	2.86
Mesh size	Powder	comply

Conclusion: In conformity with the standards

Remarks: we may make special specification according to your requirements.
