

# Technical Data Sheet

▣ Name	Carbazole		
▣ Synonyms	Diphenylenedimin		
▣ Molecular formula	C12H9N		
▣ CAS	86-74-8		
▣ Specification	<u>Item</u>	<u>Standard</u>	
	Appearance	Off-white powder	
	Assay %	95 min	
	Anthracene %	5.0 max	
▣ Application	<p>It is a nitrogen-containing heterocyclic compounds, one of the ingredients of the highest economic value of coal tar, it is can be used in the production of dyes, pigments, photoconductor, photographic materials, special ink, etc.. It also can be used as a the leather, N-vinyl carbazole plastics, pesticides four nitro carbazole chloride carbazole manufacturing.</p>		
▣ Packing	In 25kgs net bag
