Effective Date: 2017/03/20 DG1704722E

SAFETY DATA SHEET

Potassium Acetate

Jiangsu Kolod Food Ingredients Co., Ltd.

According to GHS (Sixth Revised Edition)

Section 1 **Product and Company Identification**

> Product Identifier

Product Name Potassium Acetate

Synonyms

CAS No. 127-08-2 EC No. 204-822-2 **Molecular Formula** C2H3KO2

> Relevant Identified Uses of the Substance or Mixture and Uses Advised Against

Relevant Identified

Please consult manufacturer. Uses

Please consult manufacturer. **Uses Advised Against**

> Details of the Supplier of the Safety Data Sheet

Applicant Name Jiangsu Kolod Food Ingredients Co., Ltd.

SOUTH SIDE OF WEI ER ROAD, GUANYUN DEVELOPING ZONE, LIANYUNGANG **Application Address**

CITY, JIANGSU PROVINCE, CHINA

Applicant Post Code 222000

Applicant Telephone +86-518-85110538 **Applicant Fax** +86-518-85112903 Applicant E-mail sales3239@jskolod.com

Section 2 Hazards Identification

Hazard class and label elements of the product according to GHS (the sixth revised edition):

> GHS Hazard Class

Potassium Acetate DG1704722E

Acute Toxicity - Oral Category 5

> GHS Label Elements

Pictogram Not applicable

Signal Word Warning

> Hazard Statements

H303 May be harmful if swallowed

> Precautionary Statements

Prevention

Not applicable

Response

Call a POISON CENTER/doctor, if you feel unwell. P312

Storage

Not applicable

Disposal

Not applicable

Section 3 **Composition/Information on Ingredients**

Concentration (weight EC No. CAS No. Component percent, %) Potassium Acetate >= 99 204-822-2 127-08-2

Section 4 First Aid Measures

> Description of First Aid Measures

Immediate medical attention is required. Show this safety data sheet (SDS) to **General Advice**

the doctor in attendance.

Rinse thoroughly with plenty of water for at least 15 minutes and consult a **Eye Contact**

physician if feel uncomfortable.

Take off contaminated clothing and shoes immediately. Wash off with plenty of **Skin Contact**

water for at least 15 minutes and consult a physician if feel uncomfortable.

Do not induce vomiting. Never give anything by mouth to an unconscious Ingestion

person. Call a physician or Poison Control Center immediately.

Move victim into fresh air. If breathing is difficult, give oxygen. Do not use

mouth to mouth resuscitation if victim ingested or inhaled the substance. If not

breathing, give artificial respiration and consult a physician immediately.

Ensure that medical personnel are aware of the substance involved. Take **Protecting of First-aiders** precautions to protect themselves and prevent spread of contamination.

> Most Important Symptoms and Effects, both Acute and Delayed

Substance accumulation, in the human body, may occur and may cause some concern following repeated or long-term occupational exposure.

> Indication of Any Immediate Medical Attention and Special Treatment Needed

Treat symptomatically.

Inhalation

2 Symptoms may be delayed.

Potassium Acetate DG1704722E

> Extinguishing Media

Section 5 Fire Fighting Measures

Suitable Extinguishing Media

Dry chemical, carbon dioxide, water spray, alcohol-resistant foam.

Unsuitable
Extinguishing Media

Do not use a solid water stream as it may scatter or spread fire.

> Specific Hazards Arising from the Substance or Mixture

- 1 Containers may explode when heated.
- 2 Fire exposed containers may vent contents through pressure relief valves.
- 3 May expansion or decompose explosively when heated or involved in fire.

> Advice for Firefighters

- As in any fire, wear self-contained breathing apparatus (MSHA/NIOSH approved or equivalent) and full protective gear.
- **2** Fight fire from a safe distance, with adequate cover.
- **3** Prevent fire extinguishing water from contaminating surface water or the ground water system.

Section 6 Accidental Release Measure

> Personal Precautions, Protective Equipment and Emergency Procedures

- 1 Ensure adequate ventilation. Remove all sources of ignition.
- 2 Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak.
- 3 Use personal protective equipment. Avoid breathing vapours, mist, gas or dust.

> Environmental Precautions

- 1 Prevent further leakage or spillage if safe to do so.
- 2 Discharge into the environment must be avoided.

> Methods and Materials for Containment and Cleaning Up

- Absorb spilled material in dry sand or inert absorbent. In case of large amount of spillage, contain a spill by bunding.
- Adhered or collected material should be promptly disposed of, in accordance with appropriate laws and regulations.
- 3 Remove all sources of ignition. Use spark-proof tools and explosion-proof equipment.

Section 7 Handling and Storage

> Precautions for Handling

- **1** Handling is performed in a well ventilated place.
- 2 Wear suitable protective equipment.
- 3 Avoid contact with skin and eyes.
- 4 Keep away from heat/sparks/open flames/ hot surfaces.
- 5 Take precautionary measures against static discharges.

> Precautions for Storage

Keep containers tightly closed.

Potassium Acetate DG1704722E

- Keep containers in a dry, cool and well-ventilated place.
- 3 Keep away from heat/sparks/open flames/ hot surfaces.
- Store away from incompatible materials and foodstuff containers.

Exposure Controls/Personal Protection Section 8

> Control Parameters

Occupational Exposure Limit Values

No information available

Biological Limit Values

No information available

Monitoring Methods

- EN 14042 Workplace atmospheres. Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents.
- 2 GBZ/T 160.1~GBZ/T 160.81-2004 Determination of toxic substances in workplace air (Series standard).

> Engineering Controls

- **1** Ensure adequate ventilation, especially in confined areas.
- **2** Ensure that eyewash stations and safety showers are close to the workstation location.
- 3 Use explosion-proof electrical/ventilating/lighting/equipment.
- 4 Set up emergency exit and necessary risk-elimination area.

> Personal Protection Equipment

Eye Protection Tightly fitting safety goggles (approved by EN 166(EU) or NIOSH (US).

Wear protective gloves (such as butyl rubber), passing the tests according to **Hand Protection**

EN 374(EU), US F739 or AS/NZS 2161.1 standard.

If exposure limits are exceeded or if irritation or other symptoms are

experienced, use a full-face respirator with multi-purpose combination (US) or **Respiratory protection**

type AXBEK (EN 14387) respirator cartridges.

Skin and

Protection

Wear fire/flame resistant/retardant clothing and antistatic boots.

Section 9 Physical and Chemical Properties

Appearance: White powder or crystal **Odor:** No information available **Odor Threshold:** No information available pH: No information available

Melting Point/Freezing Point (°C): 292 Initial Boiling Point and Boiling Range (°C): > 35

Flash Point (°C)(Closed Cup): Not applicable **Evaporation Rate:** Not applicable

Upper/lower explosive limits[%(v/v)]: Upper limit : Flammability: No information available No information available ; Lower limit : No information

available

Vapor Density (g/mL): Not applicable

Solubility: Miscible with water

Auto-Ignition Temperature(°C): No information

available

Kinematic Viscosity (mm²/s): Not applicable

Vapor Pressure (MPa): Not applicable

Relative Density (g/cm³): 1.6

n-Octanol/Water Partition Coefficient: No

Body

information available

Decomposition Temperature (°C): No information

available

Particle characteristics: No information available

Potassium Acetate DG1704722E

Section 10 Stability and Reactivity

Reactivity Contact with incompatible substances can cause decomposition or other

chemical reactions.

Chemical Stability Stable under proper operation and storage conditions.

Possibility of

Hazardous Reactions

No information available

Conditions to Avoid

Incompatible materials, heat, flame and spark.

Incompatible Materials

No information available

Hazardous

products

Decomposition

Under normal conditions of storage and use, hazardous decomposition

products should not be produced.

Section 11 Toxicological Information

> Acute Toxicity

> Reproductive Toxicity

No information available

> Reproductive Toxicity (Additional)

Potassium Acetate DG1704722E

No information available

> STOT-Single Exposure

No information available

> STOT-Repeated Exposure

No information available

> Aspiration Hazard

No information available

Section 12 Ecological Information

> Acute Aquatic Toxicity

No information available

> Chronic Aquatic Toxicity

No information available

> Others

Persistence and Degradability

Bioaccumulative

Potential Mobility in Soil

Results of PBT and vPvB Assessment

No information available

No information available No information available

Potassium Acetate does not meet the criteria for PBT and vPvB according to

Regulation (EC) No 1907/2006, annex XIII.

Section 13 Disposal Considerations

Waste Chemicals Before disposal should refer to the relevant national and local laws and

regulation. Recommend the use of incineration disposal.

Contaminated **Packaging** Disposal

Recommendations

Containers may still present chemical hazard when empty. Keep away from hot and ignition source of fire. Return to supplier for recycling if possible.

Refer to section 13.1 and 13.2.

Transport Information Section 14

Not applicable **Transporting Label**
